**Subject:** MAY 9TH 2018 Is Proposed date for ACS AGRO webinar on update on pollinators.

Hi Rick, thanks for agreeing to explore participation in the upcoming ACS AGRO webinar series next year. We are looking for a ~10 to 15 minute presentation about the US regulation situation relative to pollinators. What are the specific EPA actions and options of how EPA participates in larger federal program. This would be part of a larger overall program about 45 minutes long and the other presenter that day will be

I am copying Claire Terry since she is the official organizer of the webinar series for ACS AGRO.

I would also invite you to consider if there are specific presentations or topics that are important to you at EPA for us at AGRO division to cover in our symposium at the annual fall meetings. The symposium for next August are currently being planned. If there are topics or specific presentations that you feel are needed please let me know so we can include them and continue to maintain broad balance of viewpoints of all aspects relevant to the AGRO division.

Regards,
